

Concedo is moving into new offices

New Offices from 1st November 2006

Concedo has signed an agreement with Tandberg Real Estate company to secure office space at the fourth floor of the brand new building Torvgården in Asker. The location is right in the center of Asker next to the railway station. It means that the airport train from Oslo Airport stops right on its doorstep. The communication with central Oslo by train is very good, it takes only 18 minutes and trains depart from Asker several times an hour.

The offices are ultra modern and will be tailored to the needs of Concedo. The offices will provide efficient working environment for the experienced team.
